Plasma Technologies newest products are fully integrated Hypertherm Edge Connect AC Drive System and Operator's Stations. All of our products are designed to meet your machines unique requirements.

Standard Features Include:

- 19 Inch Color Touch Screen
- Digital Servo Position Control
- Integrated Operators Station
- Wireless Networking for Part Programs and Nests
- Compatible with all Hypertherm Plasma Systems and most other brands of Plasma and Oxyfuel systems
- Hypertherm TrueHole Compatible for Superior Hole Quality
- A 1-year warranty on parts and labor.

Plasma Technologies Complete System Packages include Operators Station, AC Drive, Motors, Gear Reducers, and all Interconnecting Cables. Over the past 25 years we have serviced and retrofitted most types of cutting machines and we are here to help you choose the correct Retrofit Package for your machine. Each drive comes with installation assistance and documentation. If you need on-site installation assistance, we offer that as well.

We realize one size does not fit all so we configure and build to your requirements. If your machine has one or two plasma's and or eight oxy fuel torches we can handle that. **Give us a call!**
