

Now you have Time to burn.

Add SIX Oxy-Fuel Stations to Your EDGE® Ti

Easily upgrade your system's capabilities with the new Ti oxy-fuel console from Plasma Technologies. This easy to use console gives you all the features of a larger system at a fraction of the cost. Systems are available for one to six oxy-fuel stations without losing use of your plasma.

Make Oxy-Fuel Installation a Snap!

Eliminate the difficult process of adding fuel torches to the EDGE Ti. Just connect the gas solenoids, lifters, and EDGE Ti interface cable to start burning. Simple.
